

Privacy Policy

The Price & Margin Calculator application is designed to calculate pricing, margins, VAT, and related business values.

The application does not require user registration and does not collect any personal data such as name, email address, phone number, or contacts.

All calculations entered by the user are processed locally on the device. No input data is transmitted to the developer or stored on external servers.

The application may display advertisements provided by Google AdMob. In such cases, Google may collect certain technical data about the device and app usage, including IP address, device identifiers, interaction with ads, diagnostic data, and approximate location derived from the IP address. This data is processed by Google in accordance with its own Privacy Policy.

The application does not use sensitive device permissions such as access to contacts, camera, microphone, GPS location, SMS, or storage, unless explicitly required for app functionality.

The application is not specifically directed at children under the age of 13.
